

III. List of Tables and Figures

Table 2.1: Smallest countries in the world (population < 5,000,000)	19
Table 2.2: Smallest countries in the world (area < 50,000 km ²)	22
Table 2.3: Smallest countries in the world (national income < US \$ 10 billion (real, in PPP))	24
Table 3.1: «Matrix» for government consumption and population	48
Table 3.2: OLS regressions for government consumption and log population with control variables (development)	57
Table 3.3: OLS regressions for government consumption and log GDP/GNP in comparison to government consumption and log population	63
Table 4.1: Characteristics of organizational and institutional forms for the production and provision of public goods	73
Table 4.2: Institutional forms of public good provision	86
Table 4.3: Public goods with high costs and high economies of scale, when produced in-house in VSC	88
Table 4.4: Not selected countries	91
Table 4.5: Theoretical expectations versus reality – airports	98
Table 4.6: Theoretical expectations versus reality – railway infrastructure	101
Table 4.7: Theoretical expectations versus reality – general administration (government levels)	103
Table 4.8: Theoretical expectations versus reality – foreign policy (memberships and diplomatic representations)	106
Table 4.9: OLS regressions for health system performance and size	111
Table 4.10: Theoretical expectations versus reality – overall health system	112
Table 4.11: OLS regressions for health expenditure and size	115
Table 4.12: Summary of results of Chapter 4 with regard to international outsourcing	122
Table 5.1: Disadvantages and advantages of VSC	134
Table 5.2: OLS regressions for log per capita GDP and log population with control variables	140
Table 5.3: Variables, abbreviations, sources and standard statistics	142
Table 5.4: High-income VSC characteristics	154
Table A.1: Common definitions of smallness of countries	186
Table A.2: Determinants of government size	188
Table A.3: Variables, abbreviations, sources and standard statistics	190
Table A.4: Pairwise correlations (Pearson)	190
Table A.5: List of countries with available data, grouped by population	192
Table A.6: OLS regressions for government consumption and log population with control variables	200
Table A.7: OLS regressions with political and geographic control variables	202
Table A.8: Basic data on selected VSC	204
